Today guy's I was invited again as always to get together and spend some time with a very close friend of mine and that is Lakonas ( **Bobby** ) .....The reason to get together was to check and play his collection of bouzoukia 😊 and also taste the delicious food that always his wife prepare so nice for us . 🍷

I know that Bobby work in the past professionally as a **wood technician** , and he understand and have great knowledge about wood and anything that involve with them in details. 😊

I was not surprise to see that Bobby all ready finish a tzoura and a bouzouki that belongs to Stathi .....**very very successful** 😊

He replace the soundboard on both instruments using quality wood 😊 and also he did repair the fretboard and the frets 😊 and his work is **AMAZING** 🤩🤩🤩🤩🤩🤩

The quality of his work replacing those soundboards and make them sound so beautiful 😊 make me be speechless 🤩

Other luthier's spend year's to discover what Bobby all ready did with this 2 instruments 🤩

I'm sure now that this person is **bless** and has a **big charisma** and **talent** to do a such quality work . 😊

So .... 😊

I couldn't put down the instruments from my hands 🤩 I just want to keep playing them forever ... lol 🍷

I was so happy with his work , that I went back home and took an old instrument that I had from a long time and needed new soundboard , and without any hesitation I ask Bobby to do the same work and replace it , and perform any changes that it may need . 😊

That instrument has a big and **special value** to me , because that's the instrument I use to perform for **Gianni Vogiatzi** , **George Savalas** , **Mixali Violari** , and **Vageli Germano** , and that's the instrument that legendary **Gianni Aggelou** advise me to use always since it had an amazing sound . 🤩🍷🤩

So , after seen the great job that Bobby did , I just want to let all members in this forum to know 🤩 that **between us** we have a great luthier with **KALH KARDIA KAI FILOTIMO TO TRY** always **HIS BEST FOR THE BEST** . 🍷👍
