The perloid inlay around the soundboard is exactly what my sakis 3A had. I wonder why Ousak didn't ask for abalone which looks superb.

Lakona, how thick do you cut your soundboards? They sound pretty snappy and they bite alot.. which to me sounds like they are quite thick.. can you confirm this? Just curious.. thanks.

watching some of the other clips, STOUPAKIS.. i think you should just shave your hair off... better than hanging onto those scraps you have there.. looks like a bushfire went through there lol

I shave my head, looks great.

This is vintage Kosta at his best. I don't know what happened.... did he get dumped ? Did he develop erectile disfunction ? Did he get a bad case of Hemorrhoids ? 🤔🤔🤔 whatever the reason Kosta its good to have you back !!! Things were getting a little boring around here lately.

BRAVO BOBBY 😊👍😊

Excellent sound 🤔

You are going soon to be a " MEGATHIRIO " in building quality bouzoukia
😊👍

I see in the past, first hand the quality of wood material that you use for your work 🤔

As you know 😊 **I own 6 bouzoukia** 🤔

And 3 of those as you knowtou TSOLI to TSANTOULI and the KARANDREAS are SUPERIOR IN QUALITY 🤔🤔🤔

I perform with those instruments as you know many famous singers
🤔🤔

KAI OMOS 😬

I WILL BE VERY PROUD TO OWN AN INSTRUMENT MADE " EKSOLOKLIROU " BY YOU 👍

Let OUSAK enjoy his new instrument 😊

The sound that your instruments produce Bobby is excellent 😊 CLEAN and SWEET 😊

Keep the good work for US Bobby 👍
